### Oxford

Our journalist is an Oxford graduate. This is what she has told us. Oxford is a beautiful city on the river Thames about fifty miles from London. Oxford is old and historical. It has existed since 912. The university was established in 1249. Most of the 39 Oxford colleges are fine buildings of grey and yellow stone.

Oxford is known for its specific system of education. Great emphasis is laid on tutorials. Each student has a tutor who gives personal instructions to the students. Every week the tutor and the students meet to discuss the work they have done, to criticize it in detail and to set the next week's work. The students of Oxford make up the most elite [ei'li:t] elites in the world. Many great men studied there: Milton, Cromwell, Newton; members of the Royal family were educated here too. The university "family" has more than 9,000 members.

You can see the charm of Oxford in the green fields and parks which surround the

city. You can see it in the lawns and gardens surrounding the colleges which are fine buildings of grey and yellow stone. You can see the charm of Oxford in the river Thames and its streams which pass near the city.

Do you know that the name Oxford means the part of the river Thames where the oxen (cattle) forded (crossed)?

### Universities in Britain

- There are 44 universities in Britain.
- The Universities of Oxford and Cambridge date from the 12th and 13<sup>th</sup> centuries.
- University degree courses usually extend over 3 or 4 years, but in medicine, dentistry and veterinary service 5 or 6 years are needed.
- About 45 % of Britain's full-time university students take arts or social studies courses, 41 % science and technology, about 10 % study medicine, dentistry, vet. service and so on.
- Admission to the University is by examination and selection.
- The word 'University', like the word 'College' meant originally a society of people with a common employment.

### **Our University**

My name is Boris. I am a first-year student of the Agrarian University in the town of Grodno. The University is rather old (it was founded in 1951) and has already got its own history, customs and traditions. You will learn many interesting things about our University if you visit the University Museum.

Some 7,000 young people get their education here. There are 7 faculties at the University: the Agronomical Faculty, the Biotechnological one, the Faculties of Plant Protection, Economics, the Engineering Technology Faculty, the Veterinary Medicine one and the Accounting Faculty. Besides, it has the Preparatory Department and the Correspondence one. As you can see, they practise here both a full-time education and education by correspondence.

Most of the students do not need to pay for their studies and even receive monthly state grants, though a certain number of young people **enjoy a fee-paying education**. The studies here are organized in 2 shifts. The University teaching combines lectures, practical classes and seminars. We have 3 or 4 classes every day. The students have rather favourable conditions for studies here: lecture-halls, some computer rooms, gyms, a stadium, canteens, 2 reading halls are at their disposal. The students of our University live in comfortable halls of residence or rent rooms in town.

Our University **Curriculum** comprises a lot of subjects. We study maths, history, foreign languages, chemistry, physics, biology, ecological problems, informatics being first-year students. Later we do many special subjects: morphology, breeding, economics, plant growing, dairying and many more. Their choice depends on the faculty and our future speciality.

Highly-qualified **tutors** and professors work at the University. Most members of the academic staffs devote their time to research. **Post-graduate students** are engaged in research too.

Every year we write our 'course papers' on different problems in the agricultural process. Many full-time students become members of the Students' Scientific Society.

After graduating from the University young people go to work to different parts of Belarus as agronomists, stock-breeding engineers, economists, veterinary surgeons and food technologists.

### **Oxford**

Our journalist is an Oxford graduate. This is what she has told us. Oxford is a beautiful city on the river Thames about fifty miles from London. Oxford is old and historical. It has existed since 912. The university was established in 1249. Most of the 39 Oxford colleges are fine buildings of grey and yellow stone.

Oxford is known for its specific system of education. Great emphasis is laid on tutorials. Each student has a tutor who gives personal instructions to the students. Every week the tutor and the students meet to discuss the work they have done, to criticize it in detail and to set the next week's work. The students of Oxford make up the most elite [ei'li:t] elites in the world. Many great men studied there: Milton, Cromwell, Newton; members of the Royal family were educated here too. The university "family" has more than 9,000 members.

You can see the charm of Oxford in the green fields and parks which surround the city. You can see it in the lawns and gardens surrounding the colleges which are fine buildings of grey and yellow stone. You can see the charm of Oxford in the river Thames and its streams which pass near the city.

Do you know that the name Oxford means the part of the river Thames where the oxen (cattle) forded (crossed)?

## Universities in Britain

- There are 44 universities in Britain.

### **Our University**

My name is Boris. I am a first-year student of the Agrarian University in the town of Grodno. The University is rather old (it was founded in 1951) and has already got its own history, customs and traditions. You will learn many interesting things about our University if you visit the University Museum.

Some 7,000 young people get their education here. There are 7 faculties at the University: the Agronomical Faculty, the Biotechnological one, the Faculties of Plant Protection, Economics, the Engineering Technology Faculty, the Veterinary Medicine one and the Accounting Faculty. Besides, it has the Preparatory Department and the Correspondence one. As you can see, they practise here both a full-time education and education by correspondence.

Most of the students do not need to pay for their studies and even receive monthly state grants, though a certain number of young people **enjoy a fee-paying education**. The studies here are organized in 2 shifts. The University teaching combines lectures, practical classes and seminars. We have 3 or 4 classes every day. The students have rather favourable conditions for studies here: lecture-halls, some computer rooms, gyms, a stadium, canteens, 2 reading halls are at their disposal. The students of our University live in comfortable halls of residence or rent rooms in town.

Our University **Curriculum** comprises a lot of subjects. We study maths, history, foreign languages, chemistry, physics, biology, ecological problems, informatics being first-year students. Later we do many special subjects: morphology, breeding, economics, plant growing, dairying and many more. Their choice depends on the faculty and our future speciality.

Highly-qualified **tutors** and professors work at the University. Most members of the academic staffs devote their time to research. **Post-graduate students** are engaged in research too.

Every year we write our 'course papers' on different problems in the agricultural process. Many full-time students become members of the Students' Scientific Society.

After graduating from the University young people go to work to different parts of Belarus as agronomists, stock-breeding engineers, economists, veterinary surgeons and food technologists.

Oxford is known for its specific system of education. Great emphasis is laid on tutorials. Each student has a tutor who gives personal instructions to the students. Every week the tutor and the students meet to discuss the work they have done, to criticize it in detail and to set the next week's work. The students of Oxford make up the most elite [ei'li:t] elites in the world. Many great men studied there: Milton, Cromwell, Newton; members of the Royal family were educated here too. The university "family" has more than 9,000 members.

You can see the charm of Oxford in the green fields and parks which surround the city. You can see it in the lawns and gardens surrounding the colleges which are fine buildings of grey and yellow stone. You can see the charm of Oxford in the river Thames and its streams which pass near the city.

Do you know that the name Oxford means the part of the river Thames where the oxen (cattle) forded (crossed)?

### **Universities in Britain**

- There are 44 universities in Britain.
- The Universities of Oxford and Cambridge date from the 12th and 13<sup>th</sup> centuries.
- University degree courses usually extend over 3 or 4 years, but in medicine, dentistry and veterinary service 5 or 6 years are needed.
- About 45 % of Britain's full-time university students take arts or social studies courses, 41 % science and technology, about 10 % study medicine, dentistry, vet. service and so on.
- Admission to the University is by examination and selection.

– The word ‘University’, like the word ‘College’ meant originally a society of people with a common employment.

### **Our University**

My name is Boris. I am a first-year student of the Agrarian University in the town of Grodno. The University is rather old (it was founded in 1951) and has already got its own history, customs and traditions. You will learn many interesting things about our University if you visit the University Museum.

Some 7,000 young people get their education here. There are 7 faculties at the

University: the Agronomical Faculty, the Biotechnological one, the Faculties of Plant Protection, Economics, the Engineering Technology Faculty, the Veterinary Medicine one and the Accounting Faculty. Besides, it has the Preparatory Department and the Correspondence one. As you can see, they practise here both a full-time education and education by correspondence.

Most of the students do not need to pay for their studies and even receive monthly state grants, though a certain number of young people **enjoy a fee-paying education**. The studies here are organized in 2 shifts. The University teaching combines lectures, practical classes and seminars. We have 3 or 4 classes every day. The students have rather favourable conditions for studies here: lecture-halls, some computer rooms, gyms, a stadium, canteens, 2 reading halls are at their disposal. The students of our University live in comfortable halls of residence or rent rooms in town.

Our University **Curriculum** comprises a lot of subjects. We study maths, history, foreign languages, chemistry, physics, biology, ecological problems, informatics being first-year students. Later we do many special subjects: morphology, breeding, economics, plant growing, dairying and many more. Their choice depends on the faculty and our future speciality.

Highly-qualified **tutors** and professors work at the University. Most members of the academic staffs devote their time to research. **Post-graduate students** are engaged in research too.

Every year we write our 'course papers' on different problems in the agricultural process. Many full-time students become members of the Students' Scientific Society.

After graduating from the University young people go to work to different parts of Belarus as agronomists, stock-breeding engineers, economists, veterinary surgeons and food technologists.
